

Foot Switch

Product ID: 423

Your friends probably tell you that you are "good with your hands," but now you can also be good with your feet! This foot switch is made of rubbery plastic, is plenty strong to put up with any amount of stomping, and contains a snap switch. You can use the switch as either a "normally open" or "normally closed" type. Attached to the switch is a 2 meter long cable so you can wire it directly to your project.

Technical Details

- 80mm wide, 82mm deep, 32mm tall (27mm when pressed down)
- Switch rated for 250VAC, 10A
- 2 meter (78") long cable
